Accelerated Benefit Rider Notice

Policy Form Series: ABR14-TM; ABR14-CH; ABR14-CT; ABR14-TM(NY); ABR14-CH(NY). Forms will vary by state and may not be available in all states. Refer to rider forms for a complete list of illnesses and definitions. Critical Illness Rider is not available in New York. Chronic Illness Rider is not available on term products or products with term riders in California. Some states may limit the definition of terminal illness to conditions that are expected to result in death within 12 months. The riders are offered at no additional premium. However, the accelerated payment will be less than the requested death benefit because it will be reduced by an actuarial discount and an administrative fee of up to \$500. The amount of the discount is primarily dependent on American National's determination of the insured's life expectancy at the time of election. A request for an accelerated benefit may only be advisable if the qualifying event results in significant deterioration in the insured's life expectancy. A shorter life expectancy will result in a larger benefit offer. Outstanding policy loans will reduce the amount of the benefit payment. The accelerated death benefit is an unrestricted cash payment. The Chronic and Terminal Illness Riders are intended to receive favorable tax treatment under 101(g) of the IRC. Receipt of a benefit could be a taxable event. You should consult a tax advisor regarding the tax status of any benefit paid under these riders. Receipt of accelerated benefits may affect your eligibility for Medicaid, supplemental security income, or other governmental benefits or entitlements. Before accelerating any benefit, you should consult an advisor to determine the impact on your eligibility. Accelerated Benefit Riders are not replacements for Long-Term Care Insurance. **This is a life insurance benefit that gives you the option to accelerate some or all of the death benefit in the event that you meet the criteria for a qualifying event described in the policy. This policy or certificate does not provide long-term care insurance subject to California long-term care insurance law. The policy or certificate is not a California Partnership for Long-Term Care program policy. This policy or certificate is not a Medicare supplement policy.** Accelerated benefit riders ("ABR") and long-term care insurance ("LTCI") provide different types of benefits. An ABR allows the insured to access a portion of the life insurance policy's death benefit while living and may be used for any purpose. LTCI provides reimbursement for necessary care received due to a prolonged illness or disability. Coverage may include reimbursement for the cost of a nursing home, assisted living, home health care, homemaker services, adult day care, hospice services or respite care for the primary caretaker. The benefits may be conditioned on certain requirements or meeting an elimination period or limited by type of service, the number of days or a maximum dollar limit. Benefits under some ABRs and all LTCI are conditioned upon the insured not being able to perform two or more of the activities of daily living or being cognitively impaired. California: See form 10741-CM for a more detailed comparison of benefits provided by an ABR and LTCI.

Chronic Illness requires a 2-year waiting period for acceleration in AZ, DC, DE, ND, and SD. Please see the policy contract for more details.

New York Chronic Illness Rider: This product is a life insurance policy that accelerates the death benefit on account of chronic illness and is not a health insurance policy providing long-term care insurance subject to the minimum requirements of New York law, does not qualify for the New York State Long-Term Care Partnership program, and is not a Medicare supplement policy.
